

---

A control panel for the Praxis Lateral Sound synthesizer. It features two columns of three knobs each, labeled LFO1 and LFO2. The left column has knobs for Chop Depth and Mod Depth. The right column has knobs for Delay Time, Feedback, FX Blend, and Mix. A central section contains a waveform display and a vertical slider. The Praxis Lateral Sound logo is at the bottom, with three plus signs on either side.

---

A control panel for the Praxis Lateral Sound synthesizer, identical to the one on the left. It features two columns of three knobs each, labeled LFO1 and LFO2. The left column has knobs for Chop Depth and Mod Depth. The right column has knobs for Delay Time, Feedback, FX Blend, and Mix. A central section contains a waveform display and a vertical slider. The Praxis Lateral Sound logo is at the bottom, with three plus signs on either side.

---

A control panel for the Praxis Lateral Sound synthesizer, identical to the one in the top-left. It features two columns of three knobs each, labeled LFO1 and LFO2. The left column has knobs for Chop Depth and Mod Depth. The right column has knobs for Delay Time, Feedback, FX Blend, and Mix. A central section contains a waveform display and a vertical slider. The Praxis Lateral Sound logo is at the bottom, with three plus signs on either side.

---

A control panel for the Praxis Lateral Sound synthesizer, identical to the one in the top-right. It features two columns of three knobs each, labeled LFO1 and LFO2. The left column has knobs for Chop Depth and Mod Depth. The right column has knobs for Delay Time, Feedback, FX Blend, and Mix. A central section contains a waveform display and a vertical slider. The Praxis Lateral Sound logo is at the bottom, with three plus signs on either side.
