

Thanks very much for buying a Lateral Sound **Praxis** We hope you enjoy it as much as we enjoyed designing and building your pedal.

**Praxis** runs on 9v. You'll need to connect a DC adapter with centre negative polarity like this: 

Delay 'chop' section.  
LF02 can be bypassed  
with toggle switch

Delay time-mod section. LF02  
can be bypassed with toggle  
switch

Time between  
repeats

Number of  
repeats (careful  
with overload at  
high settings!)

FX Loop Return  
(from other  
pedal/effects  
outputs)

9v DC In

Blend of  
clean/delayed  
signal

Output

FX Loop Send  
(to other  
pedal/effects  
inputs)

Input

Bypass switch

Punch/Infinite Repeats:  
When Praxis is bypassed  
this switch lets you  
'punch' into the delay.  
When Praxis is engaged  
this switch maxes-out the  
Feedback control for  
walls of infinite noise
