

Thanks very much for buying a Lateral Sound **Wayne**. I hope you enjoy it as much as I enjoyed designing and building your pedal.

**Wayne** runs on 9v. You'll need to connect a DC adapter with centre negative polarity like this: 

Volume

Uh, Fuzz

Voltage  
starve; the  
interesting  
stuff

The Strife  
control can  
make Wayne  
howl. That's  
fine. Below  
that range he's  
loose and  
'vintage'. Above  
it and he's  
tight and  
focussed

Check out Lateral's social media pages for demos and guides.
